TRADE PRICE LIST of ROSES and HARDY PERENNIALS

WE ARE strictly growers and do not buy any stock.

All of our roses are two-year field grown, budded on Japanese multiflora, the best stock for the largest part of the U. S. It is hardy, vigorous and makes a splendid root system. It will do well on all soils and positively will not "sucker."

The roses are graded to a high standard and we know you will be pleased with the stock. Grown right here in New Brunswick, they are hardy and well ripened and will give universal satisfaction to your clients.

Each year we have a number of roses that do not come up to our standard for No. 1 grade. This No. 2 grade we offer at 50% less than list. They make splendid plants for potting up or lining out.

We have sent roses to practically every state and have not had one complaint about their condition, but on the contrary, have had many compliments paid to us on the packing and high quality stock.

Growers for The Trade Exclusively

HARDY PERENNIALS

===== *field-grown* =====

Our Perennial plants are thoroughly hardened field-grown stock, superior in every way to the pot grown cuttings or seedlings that many growers sell. We give liberal sized divisions that establish themselves quickly, and give splendid results their first flowering season.

AQUILEGIA—Columbine

	Per 10	Per 100
CHRYSANTHA, pure yellow, long spurred flowers	\$1.00	\$ 8.00
COERULEA, blue and white, the most attractive of all the Columbines.....	1.25	10.00
DREER'S LONG SPURRED HYBRIDS, a fine mixture.....	1.00	8.00
PFITZER'S NEW HYBRIDS, the finest mixture of long spurred hybrids we have ever seen.....	1.25	10.00
SKINNERI, yellow petals, long red spurs.	1.00	8.00

ARTEMISIA

	Per 10	Per 100
LACTIFLORA, creamy white, Spirea-like plumes of flowers from August to October. A splendid cut flower.....	\$1.25	\$10.00

Why we want your Business !

We grow only a limited number of varieties of Roses and Hardy Plants; what we grow are for the Trade only and we are able to give such attention to their culture that no better stock of these varieties is procurable anywhere at any price. All our MUL-TIFLORA Seedlings are raised from our own seed, grown and prepared to receive the bud as low as possible; it is this "low budding" that ensures quick union, rapid growth and shapely well branched bushes.

The lifting and packing of all orders is entrusted to experienced hands, who know how to handle stock, and prepare it for long journeys by rail or boat. From Maine to Porto Rico and away to Texas, shipments have reached our customers in perfect condition.

TERMS

Cash or references from unknown parties. Packing free when cash accompanies order, otherwise at cost.

All shipments made at purchaser's risk. All orders taken subject to crop failure or conditions beyond our control.

Complaints, if any, must be made promptly on receipt of shipment.

We give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter, of any roots, bulbs or plants we sell. If the purchaser does not accept the goods on these terms, they are at once to be returned.
